

Twist

COMPLEMENTS

2018

B&B Italia Cr&S

Description

The Twist collection of carpets, designed as a leitmotif between the seats and furnishings, helps to create elegantly versatile outdoor environments through the availability of different hues and three standard sizes. Moreover, the carpets are made to measure. They are characterised by a braided structure made using 100% polyolefin carpet yarns, marked by permeability and breathability, which make the products entirely suitable for use outdoors. All the products are reversible.
