
B&B Atoll

BEDS

2021

Antonio Citterio

Description

The B&B Atoll collection is continuously being expanded and updated, and has now been extended with the addition of a new bed. This latest piece of furniture reflects the stylistic elements of the B&B Atoll sofas, united as they are by the same exceptional elegance, clean, understated lines, and rigorous proportions, as well as by the die-cast aluminium legs set at each corner, now a staple of contemporary furniture. As with the entire B&B Atoll range, the bed can be covered in leather or fabric.
