
Allure O' Outdoor

TAVOLI

2023

Monica Armani

Description

The Allure O' Outdoor table keeps the graceful strength of the design of the indoor version, clearly visible in the shape of the top and the balance between straight lines and sinuous curves. It is proposed with square and rectangular tops and in two heights to accompany the Flair O' Outdoor chairs but also the sofas and chairs in the other families of the B&B Italia Outdoor collection. The base-frame is made of moulded cement, a choice that gives the table extreme solidity and an appearance that easily adapts to any outdoor furnishing situation. The tops are available in lightened concrete and a surprising glossy glazed stoneware, a nostalgic material, used in the past for kitchen cooking surfaces. Produced with an artisanal technique, after a slow, single firing process at a temperature of 250 °C, the stoneware is manually glazed by airbrush, a technique that allows for a unique depth and variety of colour.

Technical information

Top

stoneware or cement (Ultra High Performance Concrete)

Coupling plate

stainless steel

Base-frame

cement (Ultra High Performance Concrete)

Ferrules and spacers

thermoplastic material
