

# Charles Large

SOFAS

2003

Antonio Citterio

## Description

---

The Charles Large modular sofa is an exceptionally comfortable seat with a fabric or leather cover. Airy and light in shape, it develops the idea of the sofa as a welcoming shelter where you can also lie down. The project reinterprets and enriches the Charles system, a long-standing best seller of B&B Italia, with a version with a wider depth. The project's striking features remain the essential design of the die-cast aluminium feet in the shape of an inverted "L", the single seat cushion, and the free back cushions.

## Technical information

---

**Internal frame**

tubular steel and steel profiles

**Internal frame upholstery**
