

# Erica

ARMCHAIRS

2017

Antonio Citterio

## Description

---

The Erica outdoor armchair, available in two sizes – one wider and deeper for more informal relaxation – features a technological blend of extruded and die-cast aluminium. Its lightness and design, ensuring ergonomic comfort and durability for outdoor use, make it the ideal choice for both public and residential settings. The seat and back cushions are a guarantee of comfort and relaxation. The frames are available in different finishes, combined with a polypropylene fibre interlacing and a high-strength internal core especially designed for outdoor use. Erica is a complete series of seating elements inclusive of sofas and chairs.

## Technical information

---

**Frame**
