

# Titikaka

COMPLEMENTS

2009

Naoto Fukasawa

## Description

The traditional typology of the outdoor bench is revamped with contemporary language. It's an impressive piece that resembles a sculpture. Made of teakwood slats that cover the structure to the ground on both front and back, positioned horizontally on the aluminium structure in an original wave-like arrangement to create curves that are both pleasant and ergonomically functional.

## Technical information

**Frame**

aluminium and solid wood

**Ferrules**

plastic material
