## Description

---

Minimalism and basic lines mark long upholstered benches, with or without back, which convey a sense of comfort and weightlessness. The back, which look small in comparison to the seat, ends with a short fold-back part at the top on which to rest the arms comfortably while seated. A curved joint shaped like a quarter-circle enables to combine benches of different sizes, with or without backs, to create seats of various lengths and shapes, producing original landscapes in public areas. In addition, an elegant wooden board can be placed on the seat to act as a top or service element.

## Technical information

---

**Internal frame**

tubular steel and steel profiles

**Internal frame upholstery**

Bayfit® flexible cold shaped polyurethane foam, polyester fibre cover

**Support frame**

tubular steel

**Ferrules**

thermoplastic material

**Cover**

fabric or leather in limited categories

**Small table (CLO40T)**

multi-layered wood panel, multi-laminate surface

**Set of hooks (CLO)**

aluminium
