

# Crinoline

CHAIRS

2008

Patricia Urquiola

## Description

The Crinoline chairs and stools are characterised by a sophisticated polyethylene fibre interlacing with a surprisingly natural texture. The chairs are available in two versions: with a woven backrest combined with a bright stainless steel base and a fabric upholstered seat; or with an aluminium frame that supports the curved seat and back, as if to create an entirely interwoven double shell silhouette. The stools, in two heights, have a woven back, a bright stainless steel base and a fabric upholstered seat.

## Technical information

**Base-frame**

stainless steel or aluminium with polyester powder painting

**Seat cushion/Seat and back cushion**

shaped polyurethane, cover in water repellent polyester fibre

**Interlacing**

polyethylene fibre
