ARMCHAIRS

2016

Antonio Citterio

Description

The Gio armchair is dedicated to living in the open air, included in a collection with a contemporary classic accent designed by Antonio Citterio, which developed from solid teak structures with a special antique grey finish, which gives the wood a particular lived-in aspect and silver-grey reflective quality. To ensure a better insulation from the weather, all the padded elements have a polyester cover with waterproof treatment, and the fabrics are certified for resistance to weathering, UV rays, chlorine and sea spray.

Technical information

Frame
solid wood
Webbing
polypropylene
Upholstery
high density polyester fibre
Ferrules
thermoplastic material
Waterproof cover cloth
PES fabric coated on one side in PU
