

# Jens

CHAIRS

2017

## Description

Antonio Citterio interprets the classic design of Chinese chairs in a contemporary key, rediscovering the craftsmanship of turned and curved wood, added to leather to make seats and backs that enhance the design. For the Jens chair, designed by Antonio Citterio with armrests in two versions and without armrests, the choice of wood in oak or natural wenge offers different shade variants.

## Technical information

**Seat:**

shaped polyurethane and veneered multi-layered wood panel

**Seat (SJ61PA-SJ41PA):**

cellulose rope interlacing

**Frame:**

solid wood

**Ferrules and reinforcements:**

plastic material

**Cover:**

thick leather
