**CHAIRS** 

2009

Antonio Citterio

# Description

This chair combines geometry and softness, expert woodworking skills and technology. Designed with important details, including especially the padded body that runs along the perimeter of the seat and backrest. The wooden frame visually reduces the volumes of El, concealing the foam, whose thickness guarantees remarkable comfort and a certain degree of flexibility.

## Technical information

#### Internal frame

tubular steel and steel profiles
Internal frame upholstery
Bayfit® flexible cold shaped polyurethane foam

#### Frame

solid wood

#### **Ferrules**

thermoplastic material

### Cover

fabric or leather

2 9/20/24
