

Canasta '13

CHAIRS

2013

Patricia Urquiola

Description

Canasta '13 is an outdoor chair that is given a light, transparent, bright appearance by a particular interlacing favouring the passage of light. This is a project in harmony with nature, which uses a melange polyethylene yarn with a surprisingly natural texture for the interlacing. Soft seat and back cushions, with refined textile coverings, complete the proposal. The Canasta '13 chair forms part of a complete line of seats that also includes sofas and armchairs.

Technical information

Frame

aluminium or steel with polyester powder painting

Interlacing

polyethylene fibre

Seat cushion

shaped polyurethane, cover in water repellent polyester fibre

Back cushion

polyester fibre, cover in water repellent polyester fibre

Ferrules

thermoplastic material

Waterproof cover cloth

PES fabric coated on one side in PU

Cover

fabric in limited categories
