

Canasta '13

CHAIRS

2013

Patricia Urquiola

Description

Canasta '13 is an outdoor chair that is given a light, transparent, bright appearance by a particular interlacing favouring the passage of light. This is a project in harmony with nature, which uses a melange polyethylene yarn with a surprisingly natural texture for the interlacing. Soft seat and back cushions, with refined textile coverings, complete the proposal. The Canasta '13 chair forms part of a complete line of seats that also includes sofas and armchairs.
